

Skin | Howdy basic | shampoo bar | HC-LEN-040-01 | bar

This starch-based bar is very easy to produce and functions as a practical and compact alternative to traditional shampoos. CocoJelly and Rapeseed Wax form the buttery base of this formula, which binds the powdery ingredients.

Phase	Tradename	INCI (EU)	Supplier	%
A	Lathanol LAL Coarse	Sodium Lauryl Sulfoacetate	Stepan	ad 100
	Rice PO4 Natural 9031	Distarch Phosphaste	Agrana Starch	37.20
B	KahlWax 6237 Rapeseed	Hydrogenated Rapeseed Oil	KahlWax	4.50
	KahlJelly 7038 Coco	Cocos Nucifera Oil, Olea Europaea Fruit Oil, Rhus Verniciflua Peel Cera, Helianthus Annuus Seed Cera	KahlWax	20.00
C	Coconut Beach	Parfum	Düllberg	1.00

Procedure

Mix phase A ingredients and preheat at 80 °C. Melt phase B, add to A and mix until a paste is obtained. Add phase C and press into molds. Let it set in a fridge for 30 minutes.

Specification values

Appearance: white bar

Stability: passed three months at RT, 40 °C, and 50 °C
